INAUGURAL  
*Christmas  
Guide*

*Believe In The Magic of Christmas*

## *Introduction*

*Oh the magic of Christmas, it really is the most wonderful time of the year.*

As the saying goes, Christmas isn't a season, it is a feeling. The magic of Christmas is silent in the moments that are indescribable.

It is in the precious moments of sharing children's belief, hope, surprise and wonder. It is in the twinkle of Christmas lights, the sparkle in children's eyes and the sound of their cheers as they frantically open the present they have been wishing for.

There is nothing quite like Christmas morning when the living room floor is covered in wrapping paper, and children are filled with elation playing with their new toys.

To help make this year memorable, we have created a Christmas gift guide. This is an e-catalogue listing 2019's must-have toys and gift ideas; a handpicked collection of the newest and hottest toys.

The inaugural guide provides parents, friends and families with this year's top gift ideas that are sure to be top of every child's list and they will cherish forever.

Also, we've put a spotlight on Kiddipedia's partners to deliver helpful tips and supportive messages.

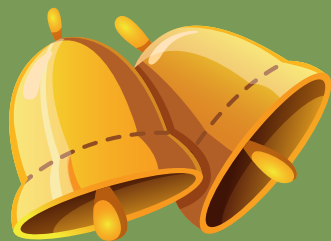

The guide aims to help and make Christmas 2019 a year to remember, I hope that it does that for you.

Much love

## Decorate your Home

*Christmas Styling with Annie Bloom – Christmas Expert*

### Top Tips:

### Top Picks:

- [Slim Pop Up Christmas Tree](#) (\$69)
- [Wooden Tree Decorations](#) (\$2)
- [Christmas Wicker Tree Skirt](#) (\$20)

1. **Start by choosing a tree that's the right size for your space** and position it in a low-traffic corner that still has pride of place in the home. I find white trees work really well in smaller spaces. BIG W's [Slim Pop Up Christmas Tree](#) is also perfect for those short on space.
2. **Follow a few simple steps to style your Christmas tree like a pro.** Fluff the tree up to make the leaves look full, distribute the lights evenly around the tree so that the branches don't sag and hide the light cords. Once you've positioned the lights, take a step back and squint and you'll be able to see any gaps where lights are missing so that you can reshuffle as necessary.
3. **Choose a colour scheme that ties back into the rest of your space.** When selecting your Christmas tree decorations, consider existing artwork and home decor to create a consistent flow throughout the home and stick to just three or four colours. When putting your decorations on the tree, work with one colour at a time, distributing them in a zig-zag pattern from top to bottom. Adding each colour separately will help you distribute the colours evenly around the tree.

## Setting a beautiful Christmas table

*How to set a beautiful table with Natasha Hockley – Christmas Entertaining Expert*

- [Iridescent wine glasses](#) (\$19 for a set of 4)
- [Pastel pink ceramic bowl](#) (\$2), [pastel pink ceramic dinner plate](#) (\$2) and [pastel pink side plate](#) (\$2)
- [Christmas Rustic bon bons](#) (\$15 for a pack of 6)

1. **Don't over complicate your tableware** - select a theme and go for it! Often we see a combination of different themes rolled into one which ends up looking cluttered and unrefined. Try sticking to a colour pallet with subtle Christmas accents - you can never go wrong with classics like wooden platters and white crockery with metallic trim. Simple done well is always a winner!
2. **Create a WOW factor on the big day** by layering up your Christmas table. Start with a nice placemat and add a charger plate, followed by a nice dinner set. Create some festive sparkle by placing some string lights in clear vases and sitting them on the table, and for an extra special touch, add some fresh herbs or greenery to your napery - a small Christmas ornament and some rosemary or cinnamon sticks tied around a napkin look fab!
3. **Get hands-on in the days leading up to the big event.** Get crafty with the kids to create a unique decoration to sit on the table for the main meal. Simply grab a jar, fill it with some Epsom salt to create faux snow, then pop in a Christmas tree ornament and maybe even a cinnamon quill or a sprig of rosemary. Finish it off by tying ribbon or twine around the top of the jar.

## Gift Wrapping Ideas

Vivienne Anthon – Wrapping Guru

### Top Picks:

- [13 Piece Ribbon & Bow Set \(\\$4\)](#)
- [Present Topper Twigs \(\\$3 for a pack of two\)](#)
- [Christmas Foldable Boxes \(\\$8 for a pack of three\)](#)

*Gift presentation is a combination of two factors – creativity (style/look) and technical skills (how you actually wrap the gift). Follow my three top tips in both areas and you'll be wrapping – stress-free – like a pro in no time! [Shop now at BIG W](#)*

### Creativity

1. As much as I love wrapping, **you don't have to wrap everything to achieve a fabulous look.** Consider the gift you've chosen and select a presentation option – fully wrapped, partially wrapped, finished off with a present topper, in a gift bag, or in a gift box. Gift boxes are especially great for awkwardly shaped gifts, as you can pop absolutely anything you want inside and the presentation still looks fabulous.
2. **Decide on your theme** whether it be Scandi, luxe, super festive, eco minimalist, monotone or botanical and keep the theme consistent across all the gifts you wrap.
3. **Select embellishments that complement the shape and look of the gift**, using ribbon, twine, present toppers and tags – it's all about balance!

## Technical Skills

1. **Measurement matters most.** Most people use too much paper causing scrunch and crinkles and too little ribbon or twine making lopsided loops. You need to measure just enough paper to go all the way around plus 5cm, and enough to go three-quarters of the way up the side.
2. **Make it firm.** Presents are easier to wrap when they are firm, so fold cloth items to make them resemble a prism or place them on a piece of cardboard or in a cardboard cylinder. This makes it 100 times easier to wrap!
3. **Flatten the edges.** If a gift is an unusual shape, some tissue paper or bubble wrap can help soften and flatten the edges, making it easier to wrap. This also ensures sharp edges don't pierce the paper and it also disguises the gift - great for an extra surprise factor!

### Authors Bio:

As Founder of gift wrapping service and consultancy, Daily Wrap; Vivienne Anthon is a true wrapping expert who believes there's nothing double-sided tape can't fix! Having started her professional life intending to be a lawyer, Vivienne worked in education and the corporate world as a CEO before she followed her passion for the creative art form that is gift wrapping. Vivienne has partnered with BIG W to share her expert tips to celebrate the launch of BIG W's Christmas range for 2019.

### A few more of my top tips (because I couldn't resist)

1. Stand at the kitchen bench or a table to wrap - **wrapping on the floor is a no no!**
2. **Double-sided sticky tape is your best friend!** It helps keep gifts looking neat and tidy, as the tape stays completely hidden.
3. If you're travelling to a holiday destination for Christmas, **foldable boxes are a great option.** Just fold it up, pop it in the car and then unfold it and sit your gift inside when you arrive.

## "Nature is magic"

Originally produced in 1975, the iconic Klorofil Magic Tree House has been relaunched by French manufacturer Vulli, makers of Sophie la giraffe.

Now available for a new generation of children 18 months-5 years.

Press the tree top, and, with a satisfying "pop", it opens up to show a furnished 4-room house with garage, lift, swing, see-saw, slide, kennel, family car and Timber Tot family.

Stimulates imaginative interaction, storytelling, coordination, fine motor skills, and awareness of the magic and importance of nature and families.

New additions include four new families, the Mushroom Surprise House, Enchanted Park, Hazelnut House, Adventure Bus, helicopter, sidecar and quad.

## Surviving the Party Season with Fussy Eaters

We all know how crazy the party season gets! Would you love to feel at ease with what your kids are eating over the holiday season? Navigating party season confidently for kids (let alone working out what to eat) means that they need to get practice.

Making nutritious food choices is a long-term game and it is not ruined by attending a party or two at Christmas. In fact, experience in handling parties is important.

## 5 Ways to Make Your Holiday Celebrations More Inclusive

Crowds, noise, unfamiliar surroundings, strange people, new food, distracting lights and social anxiety all combine to make holiday festivities not so festive for my family. While we might be able to attend for a while, the sensory and social challenges of celebrations mean we tend to only last a couple of hours. It also means my kids can take days to recover afterwards.

If you would like to invite a special needs family to your holiday celebration, there are some simple changes you can make to ensure their experience is as positive and as inclusive as possible.

## Where have all the Christmas cards gone?

Where have all the Christmas cards gone? I mean seriously, I remember when I was still younger and we received Christmas cards from my Aunt and Uncle with special greetings for Christmas and New Year. Sometimes you would be lucky enough to get some money slipped into one of them. How excited we were then whenever we open these envelopes with stamps all over them. It seems like I am talking about ancient history already.

With technology nowadays, have we forgotten the essence of sending out Christmas cards with handwritten notes and greeting for family and friends?
