Believe in the Magic of Christmas

INTRODUCTION

Oh the magic of Christmas, it really is the most wonderful time of the year.

As the saying goes, Christmas isn't a season, it is a feeling. The magic of Christmas is silent in the moments that are indescribable.

There's no doubt that Christmas 2020 will look and feel a bit different this year.

To show our support and help ignite a little added Christmas spirit we've created a Christmas gift guide with a selection of helpful articles and supportive messages for the festive season.

Alongside our articles, the guide serves as an e-catalogue listing 2020's must-have toys and gift ideas; a handpicked collection of the newest and hottest toys. This provides parents, friends and families with this year's top gift ideas that are sure to be top of every child's list and they will cherish forever.

There is nothing quite like Christmas morning when the living room floor is covered in wrapping paper, and children are filled with elation playing with their new toys.

Whatever it is that makes your Christmas special, I hope that it fills your heart and mind with all the hope, optimism and love that the world so dearly needs right now.

The guide aims to help and make Christmas 2020 a year to remember, I hope that it does that for you.

Much love

5 Tips for Buying Christmas Presents for Twins or Triplets

We all know that one of the best things about Christmas is watching the delight on their faces as they open their presents. One of the best things about Christmas with twins or triplets is the fact that you have double the joy, or even triple the joy, of watching them open their presents.

The big dilemma when it comes to buying toys for twins or triplets is should you get the same same toys, or same but different toys or totally different toys?

Here are 5 tips from Twinfo for buying Christmas presents for twins or triplets.

1. Do they have their own colour?

Some families always make sure little Robbie always has blue and little Tommy always has green. If they do have their own colours, then you can apply the “same but different” rule. This only works of course if the various set colours are available.

2. What do they like?

Let’s face it, if one is CRAZY about Bluey, and the other is mad about Buzz light year, then there is no point in buying both of them a Bluey toy. Just because they are twins or triplets doesn’t mean they will be interested in the same thing!

CHRISTMAS ON A BUDGET

Budget Christmas Gift Ideas in a Pandemic

2020 eh? What. A. Year.

Whilst bushfires and the COVID pandemic have affected each and every one of us differently, the fact is that it HAS affected each, and every, one of us.

Yet, for many families, as difficult as 2020 has been, it has also served as a reminder to all (including our children) that the simple things should never be taken for granted. In the midst of Week 1543 (or so it felt) in lockdown here in Melbourne, it wasn't an overseas trip, or the latest gadget that my children pined for; they cried because they wanted to see the beach and go swimming. They wanted to ride at the BMX track with their friends. They wanted to go to the movies.

Sound, light and action are combined to create cause-and-effect chain reactions, telling little stories in the process. A passing train makes the farm animals come to life. Schleich

Schleich promotes creativity and a rich imagination is one of the most valuable gifts you can give a child. The best part of it is: a child's creativity as well as their imagination develop almost by themselves with the right playing concepts. With Schleich products, children learn what animals really look like while playing. They learn more about the animals' natural habitats and the way they interact with each other. At the same time, this conveys to them the basics about responsible cohabitation between humans and animals.
